Educational Suitability and Facility Condition Assessments - 2021

The ESA evaluates how well a facility supports teaching and learning using the district's Educational Specifications as the standard. It includes items such as the exterior, general building, security, controllability of lighting, furniture, academic and administrative spaces, and technology.

The FCA evaluates the physical condition of a facility to measure what systems are broken, aging, etc. This includes items such as roofing, heating and air conditioning, plumbing, electrical, site drainage, and parking.

Both assessments incorporate data, staff interviews, facility walk-throughs, cost-estimating, and analysis.
